CENTRAL FAX CENTER
NOV 28 2007

1. (Currently Amended) A system comprising:
a telephone;
another telephone associated with the telephone; and
a computing device coupled to the telephone, the computing device to selectively route telephone call signals to the telephone based on user-specified rules.
2. (Original) A system according to Claim 1, wherein the telephone is to receive the telephone call, and to transmit the telephone call signals to the computing device before the computing device selectively routes the telephone call signals to the telephone.
3. (Original) A system according to Claim 1, wherein the computing device is to receive the telephone call signals from a computer network.
4. (Original) A system according to Claim 1,
the computing device to present a user interface for defining the user-specified rules.
5. (Original) A system according to Claim 1, the user-specified rules comprising rules associated with telephone call signals to be received by the telephone.
6. (Currently Amended) A system according to Claim 1, the telephone call signals to be received from ~~an other~~ the another telephone.

Application Serial No.: 10/742,304
Amendment and Response to August 28, 2007 Non-Final Office Action

7. (Currently Amended) A system according to Claim 1, the user-specified rules comprising rules associated with telephone call signals to be received by the telephone and rules associated with telephone call signals to be sent from the another ~~other~~ telephone.

8. (Currently Amended) A system comprising:
a telephone;
another telephone associated with the telephone; and
a computing device coupled to the telephone, the computing device to selectively route telephone call signals from the telephone to ~~an other~~ the another telephone based on user-specified rules.

9. (Original) A system according to Claim 8, wherein the telephone is to transmit the telephone call signals to the computing device before the computing device selectively routes the telephone call signals to the telephone.

10. (Original) A system according to Claim 8, wherein the computing device is to transmit the telephone call signals to a computer network.

11. (Original) A system according to Claim 8,
the computing device to present a user interface for defining the user-specified rules.

12.(Currently Amended) A system according to Claim 8, the user-specified rules comprising rules associated with telephone call signals to be transmitted by the telephone and rules associated with telephone call signals to be received by the ~~other~~ another telephone.

Application Serial No.: 10/742,304
Amendment and Response to August 28, 2007 Non-Final Office Action

13. (Currently Amended) A method ~~for a computing device~~, the method comprising:

selectively routing telephone call signals by a computing device to a telephone based on user-specified rules, the telephone having another telephone associated therewith.

14. (Original) A method according to Claim 13, further comprising:
receiving the telephone call signals from the telephone before selectively routing the telephone call signals to the telephone.

15. (Original) A method according to Claim 13, further comprising:
receiving the telephone call signals from a computer network.

16. (Original) A method according to Claim 13, further comprising:
presenting a user interface for defining the user-specified rules.

17. (Original) A method according to Claim 13, wherein the user-specified rules comprising rules are associated with telephone call signals to be received by the telephone.

18. (Currently Amended) A method according to Claim 13, further comprising:
receiving the telephone call signals from ~~an other~~ the another telephone associated with the telephone.

19. (Currently Amended) A method according to Claim 18, wherein the user-specified rules comprise rules associated with telephone call signals to be received by the telephone and rules associated with telephone call signals to be sent from the ~~other~~ another telephone.

Application Serial No.: 10/742,304
Amendment and Response to August 28, 2007 Non-Final Office Action

20. (Currently Amended) ~~A method for a computing device~~, the method comprising:

selectively routing telephone call signals by a computing device from a telephone to ~~an other~~ another telephone associated with the telephone based on user-specified rules.

21. (Original) A method according to Claim 20, further comprising:
transmitting the telephone call signals to a computer network.

22. (Original) A method according to Claim 20, further comprising:
presenting a user interface for defining the user-specified rules.

23. (Currently Amended) A method according to Claim 20, the user-specified rules comprising rules associated with telephone call signals to be transmitted by the telephone and rules associated with telephone call signals to be received by the ~~other~~ another telephone.
